-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-3, 24-48, 50-54, 84-108, 110-114, 123-125, 146-170 and 172-176, drawn to a method, system and computer program product for providing an electronic change of address service including verification information without validating the identity of the customer, classified in class 705, subclass 1.
 - II. Claims 4-20, 55-80, 115-122, 126-142 and 177-184, drawn to a method, system and computer program product for providing an electronic change of address service including a specific step of validating an identity of the customer, classified in class 705, subclass 64.
 - III. Claims 21-23, 81-83 and 143-145, drawn to a method, system and computer program product for providing an electronic change of address service including credit card information for verification, classified in class 705, subclass 35.
 - IV. Claims 49, 109 and 171, drawn to a method, system and computer program product for providing an electronic change of address service including providing an e-mail forwarding service, classified in class 709, subclass 206

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as providing an electronic change of address service including verification information without the specific step of validating the identity of the customer. Invention II has separate utility such as providing an electronic change of address service including a specific step of validating an identity of the customer. Invention III has separate utility such as providing an electronic change of address service including utilizing credit card information for verification.

Art Unit: 3621

Invention IV has separate utility such as providing an electronic change of address service including providing an e-mail forwarding service. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 3621
